- Conversational English

#### >> Arca Media Digital (Part Time) | Nov 2025 - Ago 2026 (10 months)

##### Web Hosting & Domains Administrator | Wordpress Developer

Comprehensive management of web infrastructure and development of informational WordPress websites, covering everything from server selection to final implementation and deployment. Participated in the evaluation and recommendation of the hosting provider, considering factors such as performance, scalability, cost, and security.

Technologies: Hostinger, GoDaddy, Filezilla, Wordpress, Breakdance Builder, HTML, CSS, Javascript, Google Analytics, SEO.

#### >> E3 Consulting | Dec 2022 - Jan 2025 (2 years, 2 months)

##### Frontend Web Developer (CMS Focused) & Server Administrator

I worked in the web development area, serving as a webmaster.

My team specialized in developing websites for various clients using technologies such as WordPress, Shopify, and Craft CMS, while also managing and maintaining the servers hosting these projects. Our most notable project was the creation and maintenance of several websites for the US-based company EzCorp, focusing on their operations in Latin America, primarily developed with Craft CMS.

Technologies: Craft CMS 4-5, JavaScript, Bootstrap, HTML, CSS, REST APIs, WordPress, Shopify, WooCommerce, GitLab, VPS, Linux, Google Cloud.

#### >> Morpheus DSS | Sep 2020 - Nov 2022 (2 years, 3 months)

##### Frontend Web Developer

I contributed to the frontend team, responsible for the design, structure, and development of both internal and external systems. My primary involvement was in a robust internal administrative system developed mainly for the customer service department.

Technologies: Electron.js, React.js, Swagger, MDBBootstrap, REST APIs, NPM, GitHub.

#### >> Dood SAPI | Nov 2018 - Dec 2019 (1 year, 2 months)

##### Frontend Web Developer & Web Designer

Designed and developed CMS websites, landing pages, and online stores. Collaborated with marketing, design, and software departments to plan development processes and strategies for these projects.

Technologies: Adobe XD, Photoshop, HTML, CSS, Bootstrap, jQuery, JavaScript, WordPress, WooCommerce, Craft CMS.
